2649 Black

2688 Forest Green

2692 Charcoal

2687 White

2608 Taupe

2606 Cardinal Red

Marlen Textiles

Top Notch 9 is a 100% solution dyed polyester fabric with a fluorocarbon finish. Because it performs like no other solution dyed fabric on the market, now you don't have to choose between weight, strength, abrasion resistance, breathability, colorfastness, and water resistance. As part of the Top Notch family of premium solution dyed fabrics, it will provide exceptional colorfastness. In a common 9 ounce weight, Top Notch 9 is more breathable than other solution dyed fabrics while still being more water resistant. Also, you get the superior strength and durability you have come to know from Marlen Textiles fabrics. Top Notch 9 can be used for many outdoor applications such as marine tops and covers, awnings, gazebos, canopies or anywhere a strong, breathable, UV resistant fabric is needed.

Top Notch 9, bringing a new "light" to solution dyed fabrics.
