TOP NOTCH™

Top Notch is the first fabric developed to combine all the best characteristics of both solution-dyed acrylics and premium polyesters. Top Notch has the strength and durability of high-end polyester fabrics along with the colorfastness, breathability, water repellency, and soil resistance properties of solution-dyed acrylics. An 840 Denier solution-dyed woven polyester awning and marine fabric, Top Notch is extremely strong, durable, tear resistant, abrasion resistant and dimensionally stable. It's fluorocarbon finish provides excellent water, soil and oil repellency. Top Notch is a one-of-a-kind new hybrid that is attractive and makes an excellent choice for residential and commercial awnings, and marine tops and covers. For unequalled features, choose Top Notch for all your fabric needs.

PRODUCT APPLICATIONS

Awnings

Canopies

Bimini Tops

Enclosures

Dodgers

Fly Bridge Covers

Cockpit Covers

Travel Covers

Spray Hoods

Banners and Flags

Luggage and Bags

Solution-Dyed Polyester Fabric

PRODUCT APPLICATIONS

Bimini Tops

Mooring Covers

Travel Covers

Enclosures

Fly Bridge Covers

Cockpit Covers

Dodgers

Awnings

Canopies

Truck Tarps

Pickup Truck Bed Covers

Outdoor Storage Covers

TOP GUN™

TOP GUN™

All over the world, TOP GUN outlasts the competition. Day after day, year after year in the sun, our specially formulated coating is highly water repellent, will not harden, crack or peel in the widest range of heat and cold. Top Gun is simply the strongest and most durable marine fabric you can buy.

TOP GUN is a 62" wide, 11-ounce acrylic-coated woven polyester that is highly water repellent, exceptionally strong, tear resistant, dimensionally stable and abrasion resistant. TOP GUN comes in a rainbow of popular shades, from bold and bright to soft and neutral. There's a long-lasting color to match your boat.

PRODUCT APPLICATIONS

Trailerable Boat Covers

Mooring & Winter Storage Covers

Bimini Tops

Canopies

Changing Room Enclosures

Seat Storage Covers

Patio Furniture Covers

BBQ Grill Covers

Camping Equipment and Furniture

Play Equipment Covers

Gazebo and Deck Covers

Banners and Flags

ODYSSEY III™
COATED POLYESTER

ODYSSEY III™

Odyssey III is one of the most versatile outdoor protective cover fabrics available. Odyssey III is highly water repellent, strong, dimensionally stable, abrasion and tear resistant.

While designed as a lightweight boat top and cover fabric, Odyssey III can be used for a multitude of cover applications, including patio furniture, BBQ grills, playground equipment, gazebos, and many more.

PRODUCT APPLICATIONS

Bimini Tops
Mooring Covers
Enclosures/Dodgers
Cockpit Covers
Fly Bridge Covers
Travel Covers
Awnings
Canopies
Pickup Truck Bed Covers
Outdoor Storage Covers

TOPYSSEY™

TOPYSSEY™

An economical, yet durable, medium weight acrylic-coated woven polyester with exceptional water repellent properties due to a clear acrylic backcoat, Topysssey provides fabricators and boat owners a long-lasting, durable outdoor fabric. It is extremely strong, abrasion resistant, tear resistant, dimensionally stable, and UV resistant. For great value and attractive cover products, choose Topysssey.

PRODUCT APPLICATIONS

Covers for Wooden/Antique Boats
Travel Covers
Outboard Motor Covers
PWC Covers
Hull, Mast Covers
RV Windshield Covers
Airplane Windshield/Wing Covers
Patio Furniture Covers
Motorcycle Covers
Computer Covers

**SOFTOUCH
BY ODYSSEY™**

SOFTOUCH BY ODYSSEY™

A combination of an acrylic coated woven polyester and a soft non-woven backer of 100% polyester, Softouch by Odyssey has the strength, dimensional stability and water and abrasion resistance of Odyssey III marine fabric but with scratch resistance due to a soft non-woven backer. Now fabricators, covering sensitive gelcoats, critical painted surfaces and delicate objects, can provide worry-free protection using Softouch by Odyssey.

PRODUCT APPLICATIONS

Safety Vests
Strips for Travel Covers
Strips for Outboard Motors
Strips for Barricades
Newspaper Bags
Coin Aprons

AMERGLO™

AMERGLO™

Amerglo fabrics were developed on a high quality 100% polyester fabric for use in products where high visibility is required. A fluorescent orange or aluminum color-coating is applied followed by clear glass reflective beads, reflecting light up to a distance of 300 feet - ideal for items requiring nighttime visibility and safety.

CUSTOM PRODUCTS

HOLIDAY® Flame retardant acrylic-coated awning fabric of 100% polyester that is exceptionally strong, dimensionally stable, and abrasion resistant. Holiday® can be produced in a rainbow of colors and it's dry no-tack finish resists dirt and dust so it stays cleaner longer. Holiday® meets California State Fire Marshal, NFPA-701, CPAI-84, and ASTM-E 84-84 Class A flame specifications.

ODYSSEY I™ Flame retardant acrylic-coated fabric designed to allow water to pass through it and dry rapidly for increased usefulness in camping and disaster relief applications, such as cots and chairs.

ODYSSEY II™ Woven polyester acrylic-coated fabric that is both water repellent and breathable. It is designed to allow water to pass through but not retain dampness, making it highly desirable for use in outdoor furniture, cushions, and lounge pads.

ODYSSEY IV™ A strong, highly water repellent acrylic-coated polyester that meets CPAI-84 flame specifications is lightweight for ease of fabrication, consumer assembly and storage. Uses include tents, ice fishing shelters, banners, and flexible air ducts.

CUSTOM COATING AND LAMINATING MarChem Coated Fabrics, Inc. develops urethane, acrylic and other coating systems to meet stringent military and commercial requirements, with high-tech microprocessor-controlled finishing lines. Laminations are produced on several high-quality laminating machines. Additionally, slitting as narrow as 1" is available. Custom coatings, finishes, laminations, and colors are developed to meet specific customer needs and are hand inspected to assure product quality. Let us know how we can help you.

ACCESSORIES

AQUA-TITE® A silicone water repellent that is excellent for restoring or enhancing the water repellency on all types of outdoor products.

Available in both quarts and gallons, Aqua-Tite® can be used on cottons, acrylics,

polyesters, nylons, and polyester/cotton blends. It is easy to use and can be applied with a brush, roller, or sprayer. If you want maximum protection from rain or snow, Aqua-Tite® will do the job!

PARASEAL™ An anti-fray fabric treatment designed for all cotton and polyester/cotton blends that will seal the cut edges of fabrics. Paraseal is water resistant, washable, non-toxic, dries clear and cures at room temperature.

MARSOLV™ An exclusive formulation to easily remove transferred color from various fabrics to vinyl seating and upholstery. Marsolv removes the transferred colors caused by plasticizer migration from the vinyl without harming the finish of the vinyl. It is available in convenient quart bottles.
