Marlen Textiles

* Premium Color, subject to change

Softouch™ and Softouch™ SD are the perfect fabric for those looking for protection while also worried about damaging the painted, gel coated or other delicate items that are being covered. While regular fabrics can scratch these surfaces, Softouch™ and Softouch™ SD will not due to their soft backing. Softouch™ utilizes our Odyssey™ fabric and Softouch™ SD utilizes our Top Notch™ 1S fabric as the top side that is laminated to a special non-woven backer. So whether you want a coated fabric or traditional woven look, we can provide the ultimate choice for nonabrasive fabrics to cover and protect your possessions. In addition to the stock colors shown here, both products can be made in virtually any custom color.

Performance and Luxury, Softouch™ and Softouch™ SD
