To order 13 ounce Top Gun FR use 7xx number. To order 8 ounce Top Gun FR Lite use 7xx-LT.

Top Gun™ FR and Top Gun™ FR Lite are acrylic coated, 100% woven flame retardant polyester fabrics utilizing a proprietary formula and process to coat the top and bottom, allowing the fabrics to be completely reversible. Top Gun™ FR and Top Gun™ FR Lite meet most know flame retardant specifications, both initial and leeching. That means that unlike other fabrics, you don't have to worry about still meeting a flame specification after it has been exposed to the elements. As part of the Top Gun™ family of premium coated fabrics, they are characterized by excellent strength, durability, tear and abrasion resistance, dimension stability, UV and mildew resistance, making Top Gun™ FR and Top Gun™ FR Lite the ultimate flame retardant fabrics. Top Gun™ FR and Top Gun™ FR Lite are perfect for awnings, tents, gazebos, canopies or any application requiring performance and flame resistance.

Top Gun™ FR & FR Lite, hot alternatives in flame retardant fabrics.
